Activate LOG

1.1 Activate Models LOG

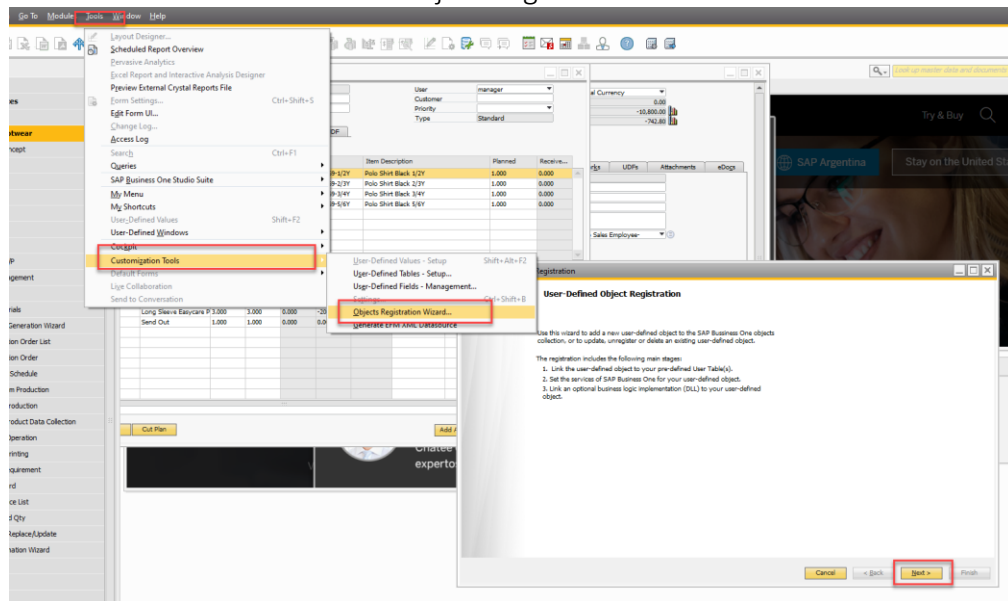

Tools – Customization Tools – Object Registration Wizard

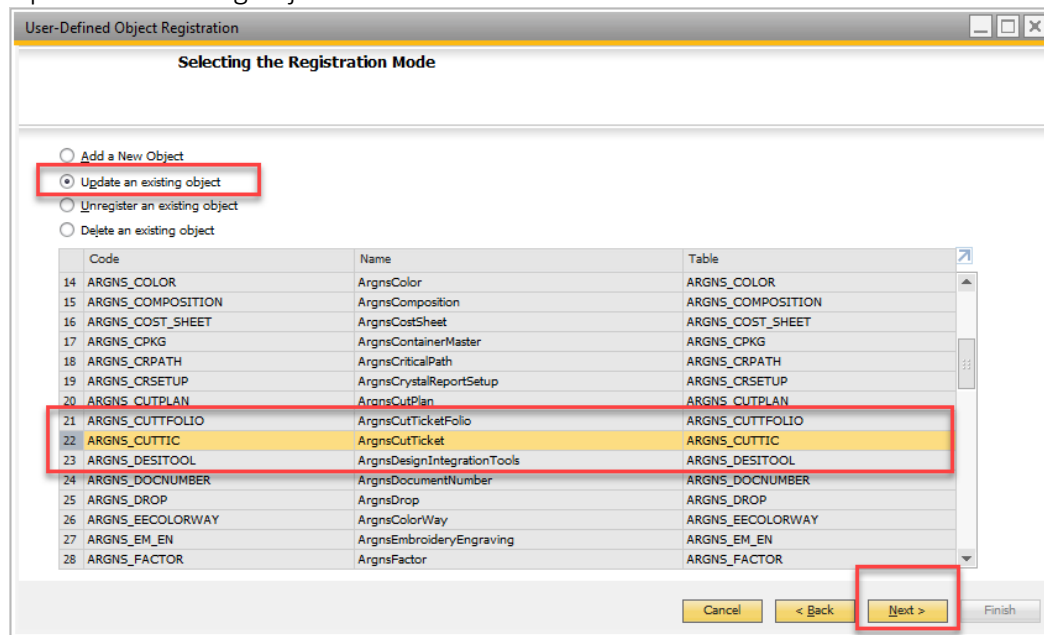

Update an existing object

1.2 Activate Production Orders LOG Tools – Customization Tools – Object Registration Wizard

Update an existing object

1.3 See change Log

Open the object with data from where you want to see the changes, in this case it is a production order
Tools – Change Log

Tiene que estar abierto un objeto con datos de donde se quiere ver las modificaciones, en este caso es una orden de producción,
Herramientas – Log de modificaciones

The screenshot displays the SAP Business One interface. The 'Tools' menu is open, and 'Change Log...' is highlighted. A red arrow points to the 'Change Log...' option. Below the menu, the 'Change Log...' dialog box is open, showing a table with columns: #, Instance, Object Code, Updated, Updated by, Created, and Created By. Two entries are visible, both dated 30.01.20 and updated by 'manager'. A 'Differences' dialog box is also open, showing a table with columns: #, Date, Changed Field, Previous Value, New Value, and User Name. Two entries are visible, both dated 30.01.20, with 'Operation Stage' changed from an empty field to '36' and '37' respectively, both updated by 'manager'.
