<b>1</b>	<b>REPORTS.....</b>	<b>2</b>
1.1	UNABLE TO CONNECT .....	2
1.2	THE PROCESS CANNOT ACCESS THE FILE .....	3
1.3	THE CRYSTAL REPORT IS NOT SHOWING .....	3
1.4	THE UPC LABELS IS NOT SHOWING BARCODE FONT .....	7

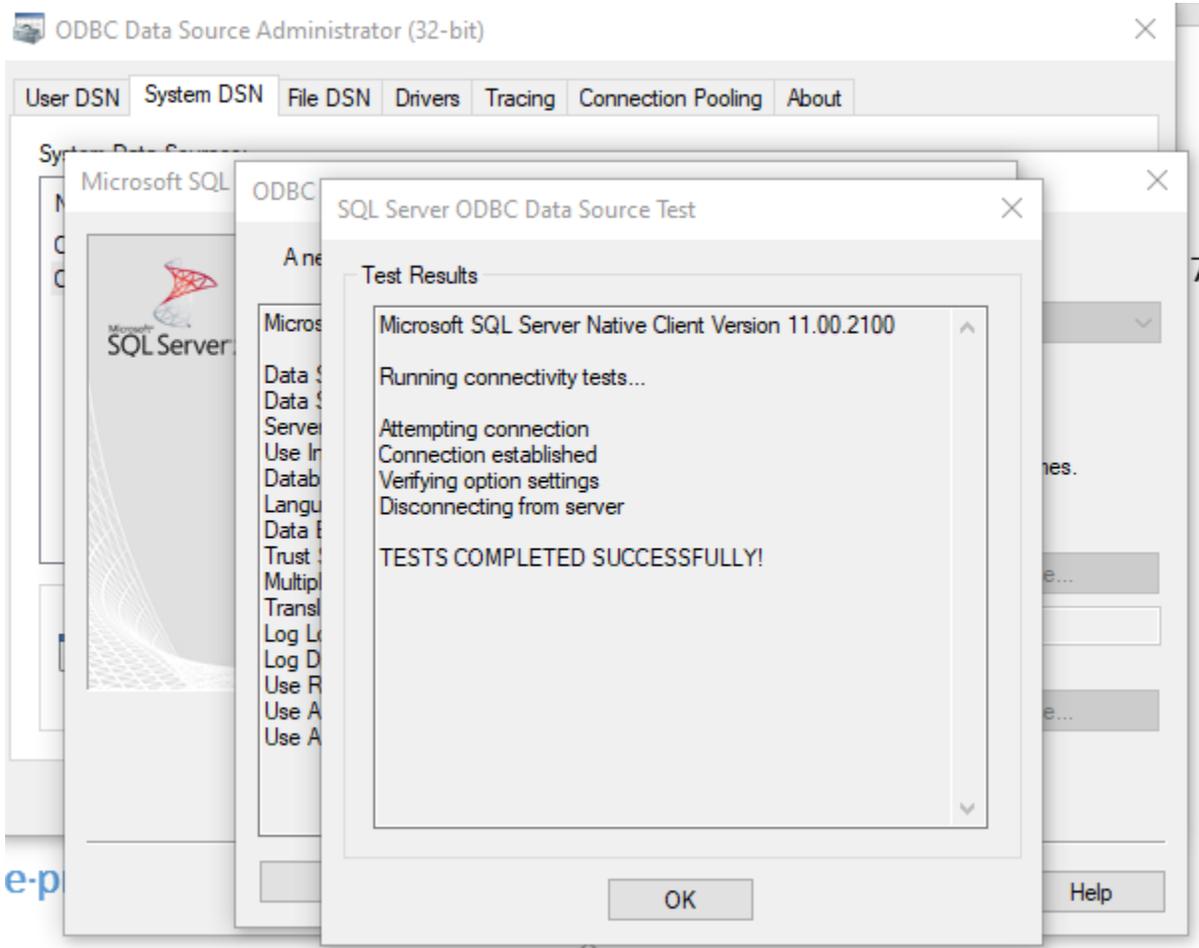

## 1 Reports

1. Made sure the crystal report path is correctly setup in the Apparel and Footwear General Settings tab.
2. Made sure the physical files are actually on the path I checked above.
3. Check user permissions for the Crystal and Addon folders
4. Ran the "Register ActiveX" button on the maintenance window from Apparel and Footwear.
5. Ran as administrator, the "RegisterControls" file on the "C:\Program Files (x86)\SAP\SAP Business One\AddOns\ARGNS\Apparel And Footwear\X86Client" folder.
6. Made sure the ODBC is correctly setup and connects with the SYSTEM user.
7. The reports are the latest reports from the Argentis FTP and ApparelRelease2.2.42.7 or later

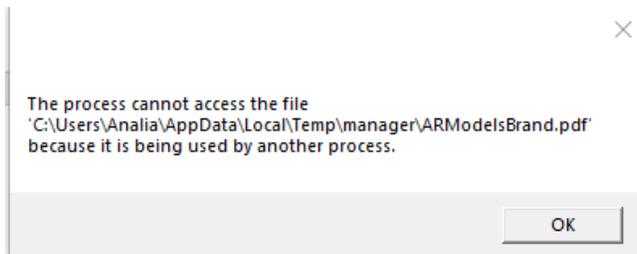

### 1.1 Unable to connect

Please check your OBC until you get TESTS COMPLETED SUCCESSFULLY!

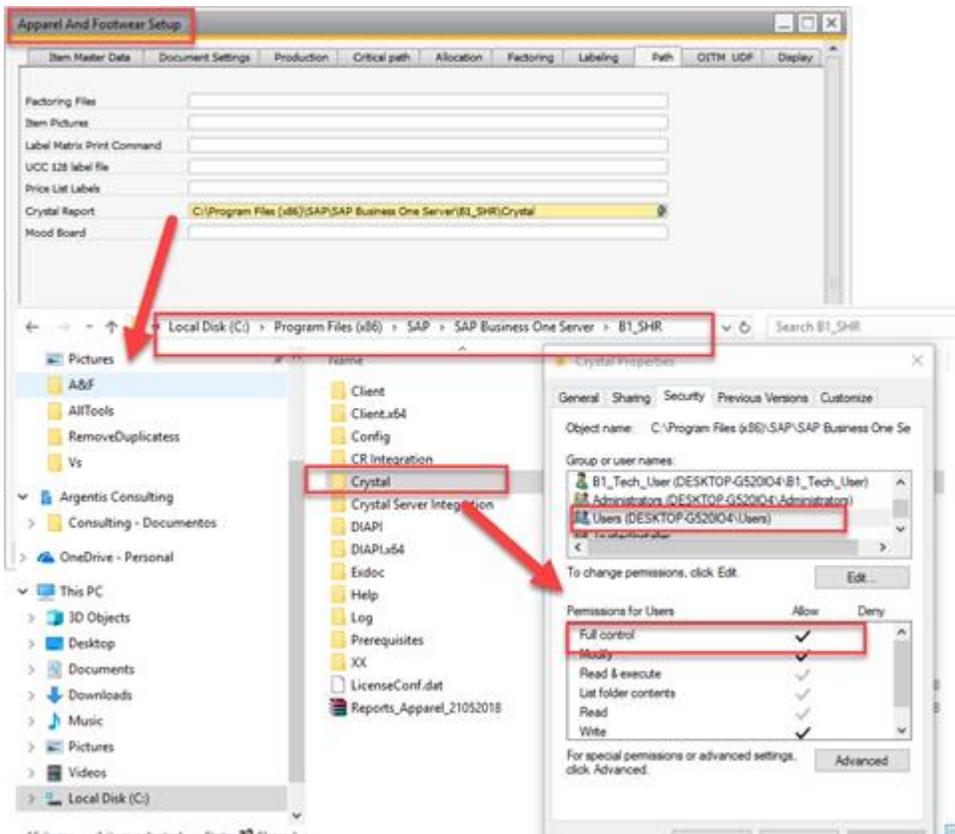

## 1.2 The process cannot access the file

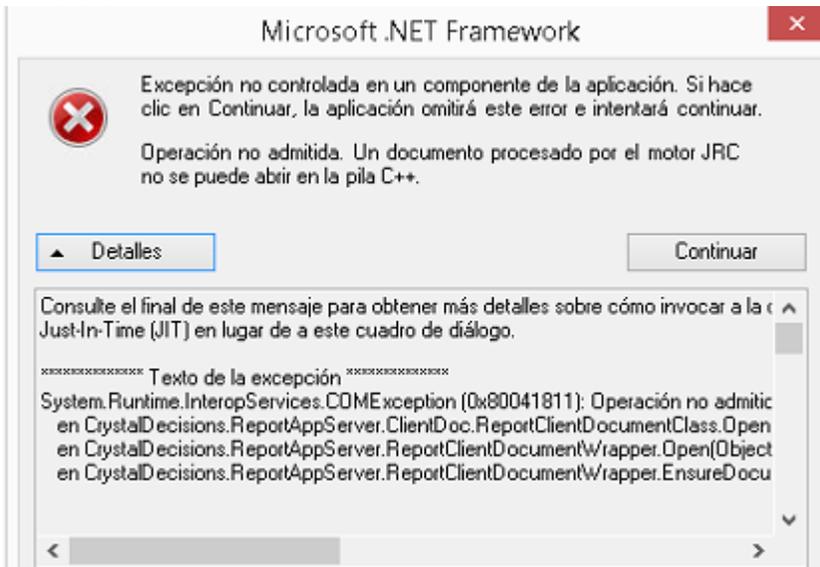

That means you are trying to open a Report, that is already opened. Close the report it and try again

## 1.3 The Crystal report is not showing

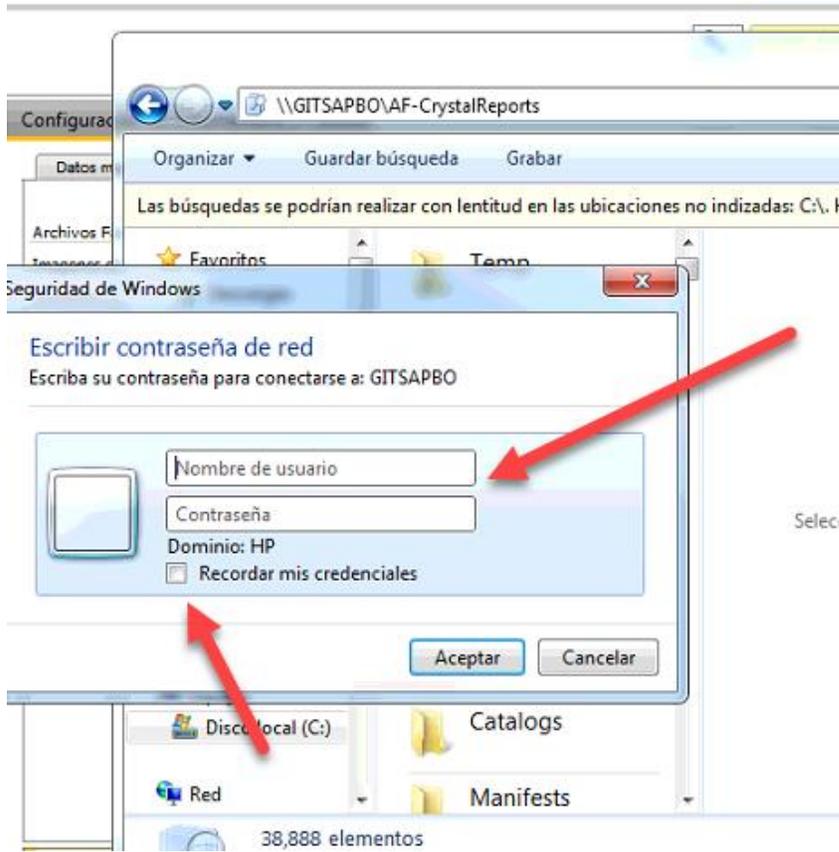

1. Verify that users have access to the folder where the reports are stored on the server:

In the client's machine:

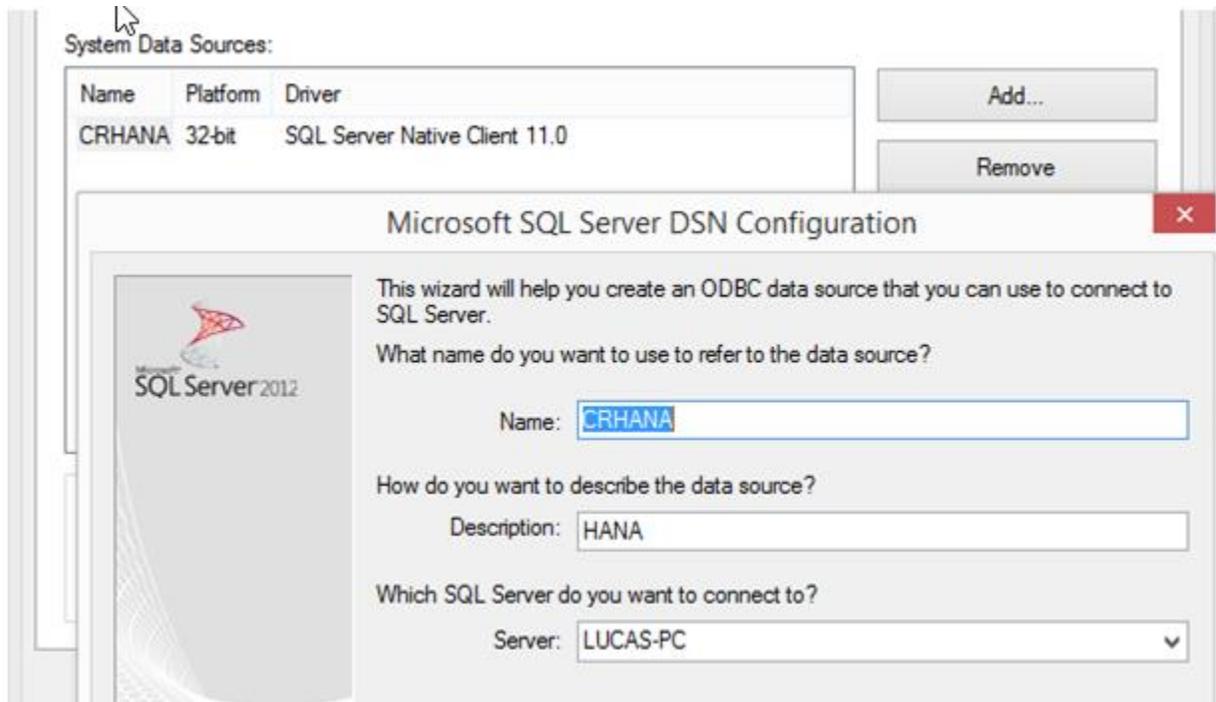

If this error occurs on the client machine, please check the box ("Recordar mis credenciales" / Remember me)

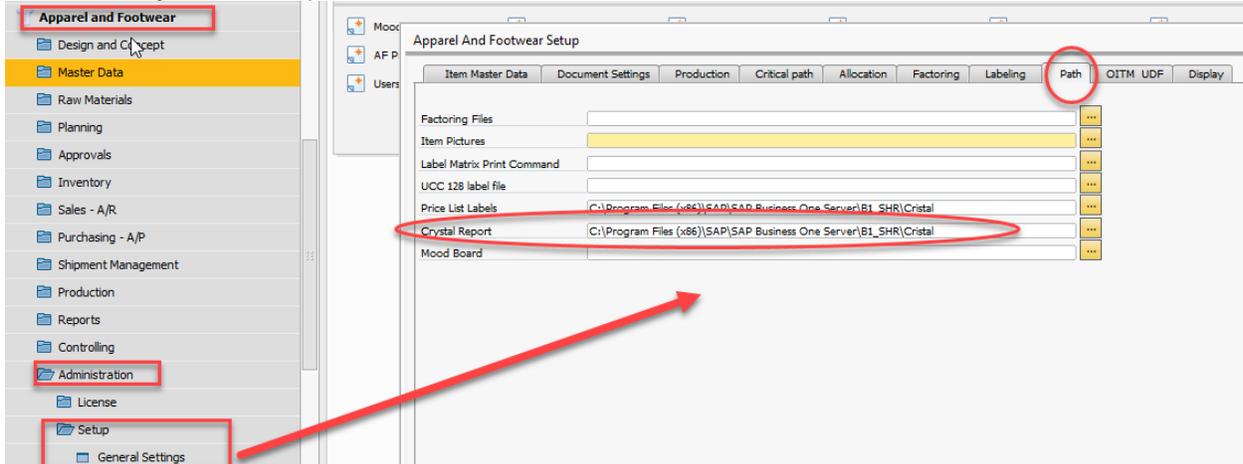

2. Run Register ActiveX (manually C:\Program Files (x86)\SAP\SAP Business One\AddOns\ARGNS\Apparel and Footwear\X86Client \RegisterControls.bat run as administrator)

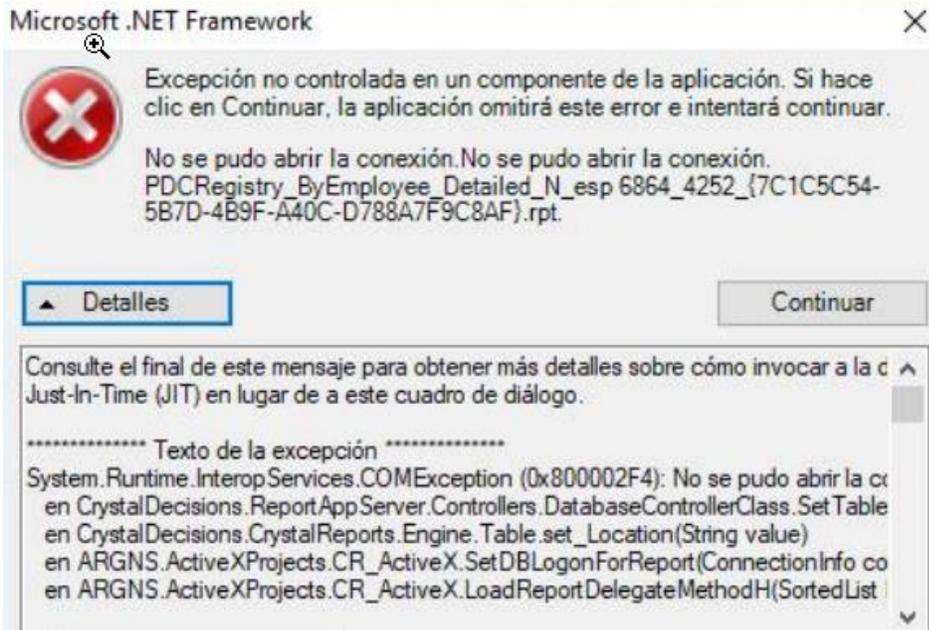

3. Configure ODBC 32 and 64 bits on each machine

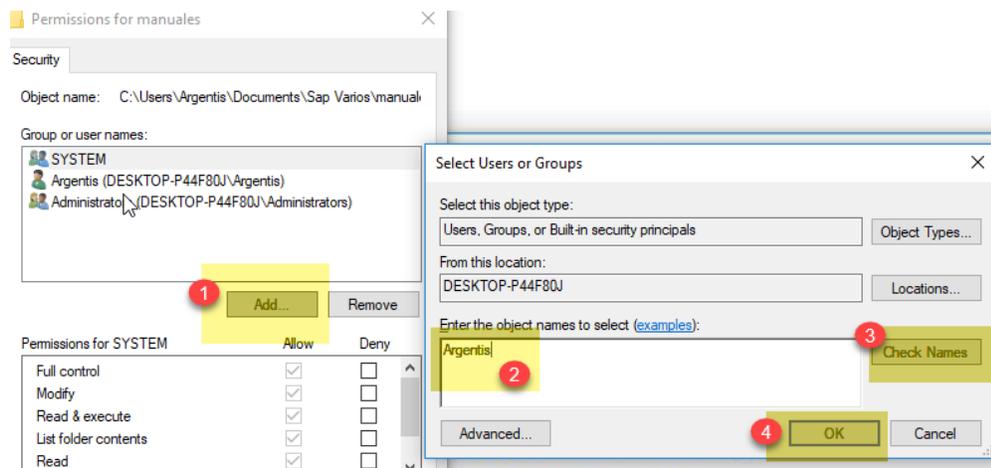

#### 4. Verify that the reports are on the correct Path

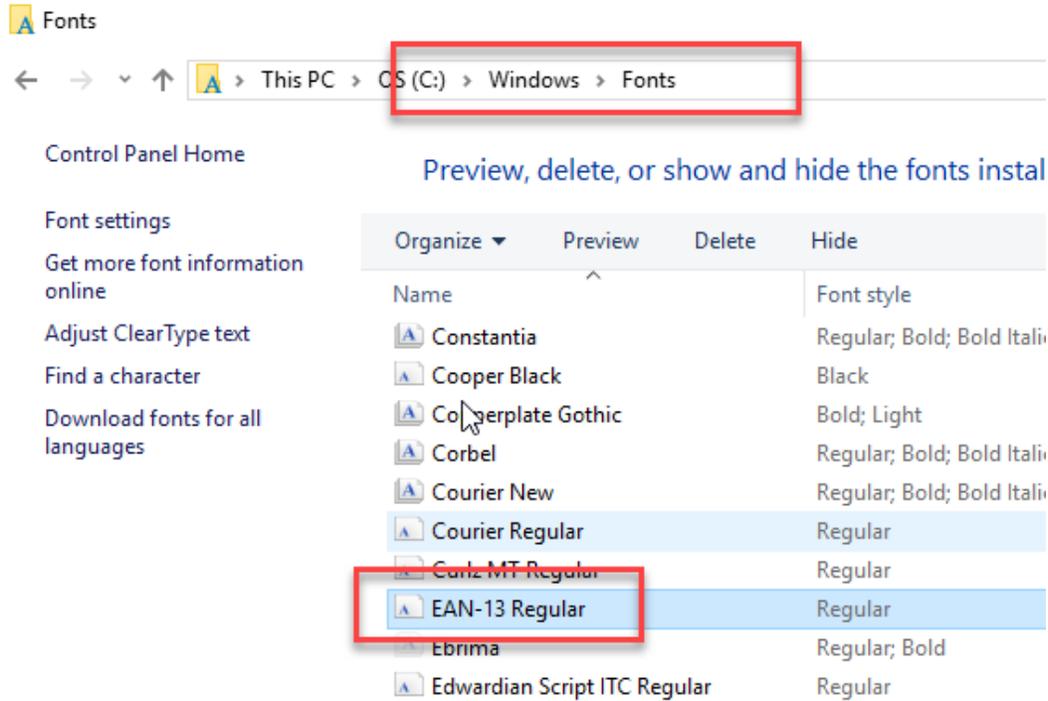

Go to control panel – user and then allowed full control (permission) to that user (windows PC user) and Run SAP as administrator

## 1.4 The UPC labels is not showing barcode font

In the CR\_print\_labels.rpt report, some fonts are not allowed, but Ean13 shows barcode. Install the Ean13 font

And then in Crystal edit the report
